

January 7, 2013

Dear David Saylor,

Effective immediately, MediView is NEMSiS v2.2.1 Compliant at the Gold Level.

The NEMSiS Technical Assistance Center (TAC) would like to thank you for your participation in NEMSiS v2.2.1 Compliance. Each XML file, generated from the NEMSiS v2.2.1 test cases, was compared to a master XML file containing the expected results. Content was reviewed for the correct text values, codes, syntax, and file structure. Based on this review, I am happy to inform you that **Beyond Lucid Technologies** did successfully satisfy the criteria for NEMSiS v2.2.1 Compliance.

NEMSiS maintains graphic logos indicating NEMSiS Compliance which can be used in your marketing and promotional materials. There is no charge to use these logos and I can provide these to you on request. Each NEMSiS Compliant Software is listed on the NEMSiS website at www.NEMSiS.org and you may use the term "NEMSiS Compliant" in your product information and marketing efforts.

The NEMSiS TAC appreciates your efforts and support of this EMS data standard and our EMS industry.

Congratulations,

Jorge Rojas Jr.
